Ameresco (NYSE: AMRC) is a leading cleantech integrator and energy asset developer, owner and operator.

Founded in 2000 | Public in 2010

Comprehensive Portfolio

Objective approach and in-house technical expertise delivers the most advanced technologies to meet the unique needs of each customer. Majority of projects are budget-neutral, funded by energy cost savings.

Customer Driven

$10+ Billion in energy solution projects, 280+ MWe of Owned Assets in Operation

1,000+ Employees throughout North America and the United Kingdom

70+ Offices providing local expertise in markets served

8,000+ Customers from energy efficiency measures and energy generation

Up to 45% Energy savings with audit-based energy projects

In 2020, our projects and customers saved 12.6M metric tons of CO2
Industry Awards & Analyst Recognition

Acclaimed a Leader in Guidehouse Insights’ 2020 Leaderboard Report
Energy Service (ESCO) Companies

Acclaimed #1 Leader in Guidehouse Insights’ 2021 Leaderboard Report
Energy-as-a-Service (EaaS) Companies
Industries We Serve

- Airports
- Colleges & Universities
- Federal Government
- Healthcare Facilities
- Industrial & Manufacturing
- Public Housing
- Retail & Commercial
- State & Municipal Government
- Utilities
- Water Utilities
Ameresco’s Advanced Technology Portfolio

**Energy Efficiency**
- Smart Building Automation & Controls
- Interior Lighting and Controls
- Water/Wastewater Efficiency & Recovery
- HVAC & Ventilation
- Boiler & Chiller System
- Industrial Optimization
- Building Envelope
- Advanced Metering
- LED Street & Area Lighting
- Smart Cities

**Distributed Energy Generation, Storage & Microgrids**
- Cogeneration Plants
- Solar (On-Grid & Off-Grid)
- Batteries and Energy Storage
- Biomass, Biogas, Landfill Gas to Energy, RNG
- Microgrid
- Geothermal
- Wind
- EV Charging

**Energy Analytics and Supply Management**
- Energy Analytics
  - AssetPlanner®
  - Measurement & Verification
  - Advanced Metering
  - VisionDSM (AEG)
- Energy Supply Management

**Infrastructure**
- Utility Distribution
- Retrofits/Expansions
- Modernization
- New Construction
- Monetization/Ownership & Leasing

**Operations and Maintenance**
- Plant O&M
- Solar O&M
- Facility Management
- System Repair
- Lighting System
- Control System Maintenance
Unique Ability to Finance Any Opportunity

• $10+ Billion in energy solutions across financing models, markets & technologies
• Budget-neutral infrastructure upgrades use energy savings to pay for projects over time
• Options for customers to implement infrastructure upgrades on- or off-balance sheet
• Innovative funding with renewable energy certificates, grants, utility rebates & tax incentives

Performance Contracting (ESPC, UESC)  Design, Build, Own, Operate, Maintain (DBOM)
Power Purchase Agreements (PPA)  Design-Build  Engineer-Procure-Construct (EPC)
Energy Service Agreements (ESA)  Public-Private Partnership (P3)  Energy-as-a-Service

AMERESCO
Ameresco’s 2020 Carbon Offset of approximately 12.6 million metric tons of CO₂ is equal to:

- 31.4 billion miles driven by an average passenger vehicle

or

- Carbon sequestered by 18 acres of U.S. forest

Data estimates are based on Ameresco assets owned and operating as of 12/31/2020 and customer projects as of 12/31/2019. The annual carbon impact is calculated with these Ameresco estimates using the standards of the US EPA Greenhouse Gas Equivalencies calculator.
Why Ameresco?

Ameresco (NYSE:AMRC) is an innovative cleantech integrator with a comprehensive portfolio of energy efficiency and renewable energy solutions. We deliver a broad and deep solution portfolio within a single energy partner. From design and development to financing and construction, our in-house technical expertise sets us apart.

Our objective approach enables us to implement the most advanced technologies to meet the unique needs of each customer.
Thank You!
